)

D1: Option A HW: Natural Resources and Us (Due D4 aka

As we have discussed, Utah's public lands are available to all people, though some restrictions are put into place. For this activity, you will be finding some nearby public land (i.e. National Forest, BLM land, etc.) & engaging in an **approved activity** of **your choice**.

You are welcome to choose the activity (hiking, rock hounding, geocaching, fishing, etc.), but just make sure you are obeying the laws and rules. Make sure to answer the following questions to tell me a bit more about what you did!

1. Where did you decide to go for your activity? Explain why you chose this.

2. What activity / activities did you engage in while discovering these public lands? How was your

experience?

3. Did you see any rules or restrictions for the area you visited? If not, research online and find out what rules exist there. Do you agree with said rules? Why / why not?
